"Can I Get Your Number"

Visit "[Can I Get Your Number](#)" on MotoLyrics.com

Can i get your number baby
Hit me with the seven digits
Can i get your number baby
Hit me with the seven digits

When you walked through that door
I nearly lost my mind
Your sexy attitude
And something 'bout your smile
I knew right then and there
I had to know your name
I had a crush before
But this just ain't the same

Cause i've never fallen in love before
With a girl i didn't even know
And there's somethin' about you
That tells me that i should be down

Chorus:
I've been east
I've been west
We've been all around the world
But i've never seen a girl like you
(seen a girl like you)
I've seen blondes and brunettes
And some really hot redheads
But i've never seen a girl like you
(seen a girl like you)

Can i get your number baby
Hit me with the seven digits
Can i get your number baby
Hit me with the seven digits

Must be a supermodel
You're a perfect ten
Your body's off the hook
And girl i must confess
If you were on display
I'd wait all week in line

I better check my vision
Cuz i can't believe my eyes

Cuz i've never fallen in love before
With a girl i didn't even know
And there's somethin' about you
That tells me that i should be down

Chorus

Can i get your number baby
Hit me with the seven digits
Can i get your number baby
Hit me with the seven digits

Cause i've never fallen in love before
With a girl i didn't even know
And there's something about you
That tells me that i should be down

Chorus 3x
