No Angels
"Can't Go On"

Intro:
Girl I know I was wrong
Please come back to me
Without you I just can't go on

You said you're leavin' me and I understand
Although we've had some good times,
Lately you seem so sad
Don't try and say you don't love me,
Cause you know that just ain't true
That's just your way of trying to say you don't
Know what to do

When the times got tough, girl I let you down
Things got rough, I was not around
Should have been everything that you need
Baby I pray that you come back to me

Chorus:
I can't go on without you in my live
I can't go on knowin' we haven't tried
You're the one that I want, the one that I need
Baby bring all of your love back to me

I care for you more than you know
Should've spent more time doing the things
That make love grow
Didn't ever mean to leave you alone
Was too blind to see what I had at home
Now, I realize what I'd do for your love
When the times get tough, I won't let you down
Seas get rough, I won't let you drown
I will be everything that you need
Baby I pray that you come back to me

Bridge:
Oh I realize, every time I fantasize
Being back in your arms,
Holding you close at night
Baby understand, I want to be the man
Who'll take care of you, I'll be there for you

I won't ever hurt you again
