You see a Book by it's cover
I see the pages that I've yet to write
you see the world with no color
I see a Rainbow inside of your eyes

I remember a time when you brought the sun to my day
where did you hide all of the beautiful sky
Cuz now it's just pouring like Rain

CHORUS: It's like we're derailed
Baby just tell me where we failed
So we can go back to the good days
Before love got off of our train
and we fell off track

We fell off, fell off
Fell of the track...
We fell off, fell off
Baby, come back
We fell off, fell off
Fell of the track and derailed

Somehow you lost your direction
we're so close then you fell far behind
Never had to ask for affection
used to be strong now you don't even try

I remember a time when I had a smile on my face
you shouldn't hide the fact that you love me inside
please don't drift too far away

CHORUS: It's like we're derailed
Baby just tell me where we failed
So we can go back to the good days
Before love got off of our train
and we fell off track

We fell off, fell off
Fell of the track...
We fell off, fell off
Baby, come back

We fell off, fell off
Fell of the track and derailed

What is it gonna take to go back in time
just press rewind cuz i hate this feeling
you still have a chance to make all this right with me

It's like we derailed
baby just tell me did I fail to love you
Cuz I'm still here, waiting for you at our station

CHORUS: It's like we're derailed
Baby just tell me where we failed
So we can go back to the good days
Before love got off of our train
and we fell of track

We fell off, fell off
Fell of the track...
We fell off, fell off
Baby, come back
We fell off, fell off
Fell of the track and derailed

We're not supposed to be derailed

You see a book by it's cover
I see the story that we used to write
