Iâm the kinda girl whoâs something like a diamond
Cost a lot, and itâs hard to find one
This is might be a day you wonât forget no
Iâll have you doing things you wonât regret, so

If you wanna see my wild side (Wanna see my wild
side)
Hereâs the rules that apply (Keep your eyes on me all
the times)
You gotta let me run the show (Iâm a trained
professional)
Make him roar, beg for more
Not too much, get down boy

Chorus:

Youâre used to your way
Boy, itâs a new play
Why fight it when you know that you gonâ like it
Just enjoy the ride
Fall back but not behind
Why fight it when you know that you gonâ like it

Get down, get down
Get down, get down, get down
Get down, get down
Get down, get down, get down
Get down, get down

Verse 2:

Seems like youâre scared of a challenge
Looks like youâre nervous, boy quit all that whininâ
Youâre not used to one whoâll take the time to tame
you
Guarantee that youâll be whipped soon as I get
through

If you wanna see my wild side (Wanna see my wild
side)
Hereâs the rules that apply (Keep your eyes on me all

the times)
You gotta let me run the show (Iâ€™m a trained
professional)
Make him roar, beg for more
Not too much, get down boy

Chorus:

Youâ€™re used to your way
Boy, itâ€™s a new play
Why fight it when you know that you gonâ€™ like it
Just enjoy the ride
Fall back but not behind
Why fight it when you know that you gonâ€™ like it

Get down, get down
Get down, get down, get down
Get down, get down
Get down, get down, get down
Get down, get down

Break:

Iâ€™m gonâ€™ throw it back, boy
Cuz you been a bad boy
Teach you tricks and show you how to act
How to act, uh huh huh

Chorus:

Youâ€™re used to your way
Boy, itâ€™s a new play
Why fight it when you know that you gonâ€™ like it
Just enjoy the ride
Fall back but not behind
Why fight it when you know that you gonâ€™ like it

Get down, get down
Get down, get down, get down
Get down, get down
Get down, get down, get down
