I I know that you were the first in love stuck around
while my heart played out, kept holding on.

(minute by minute)

And i opened up to the light of day i just hope that i see
your face.

kept holding on.

(minute by minute)

Chorus:

So dont walk away dont walk away now, im here with
you im with you right now keep holding on keep holding
on minute by minute, minute by minute.

Im fallin in im falling deeper each step i take im getting
closer it wont be long it wont be long minute by minute

im seeing form your point of view, im inching over
making room for two. keep holding on,

(minute by minute)

oh i, i started thinking this aint me but i changed
direction cos i finally see i want you more

Chorus:So dont walk away dont walk away now, im here
with you im with you right now keep holding on keep
holding on minute by minute, minute by minute.

Im fallin in im falling deeper each step i take im getting
closer it wont be long it wont be long minute by minute

I just chose to seem so fool thats right look at me with
you, when i see what you always knew, where ever im
going i see that u will always be.

Chorus

So dont walk away dont walk away now, im here with
you im with you right now keep holding on keep holding
on minute by minute, minute by minute.

Im fallin in im falling deeper each step i take im getting
closer it wont be long it wont be long minute by minute
