1st Verse:

Were still taking on the phone in the morning  
We started talking on the phone since the night before  
I should be tired but the laughter is pouring  
So I think ill stay up some more

Its like we're sixteen again  
I haven't feel this in so long  
I never want it to end  
and it takes me back

Chorus:

It feels like young love  
It feels like butterflies singing around me  
It feels like young love  
Even when we're old and grey  
Were still gonna stay  
In young love

2nd Verse:

You got the remedy my body is missing  
I don't need anything as long as you touch  
me boy  
my lips are burning from the heat of your kisses  
and when are tongues are tied  
we can go all through the night

Chorus:

It feels like young love  
It feels like butterflies singing around me  
It feels like young love  
Even when we're old and grey  
Were still gonna stay  
In young love

Bridge:

Time stands still  
When you're around  
Time stands still when you're around  
Time stands still when you're around

Chorus:

It feels like young love

It feels like butterflies singing around me

It feels like young love

Even when we're old and grey

Were still gonna stay

In young love
