Just another fat fuck sitting on top
Telling us what's got and what's not
That's all you'll ever do, never having you own CREW!
I could, never, figure you out
Where did you come from?
Thought you knew it all
I ought to hate you, instead i pity you

Always talking shit - BEHIND MY BACK!
What was the point - OF YOUR ACTIONS?
Always talking shit - BEHIND MY BACK!
What was the point?

Did you seriously think that you could get away?

I don't belive that violence is the solution
But oh my god, I would love to see you head hanging
from odd the wall
It would surely give me so much joy!

Always talking shit - BEHIND MY BACK!
What was the point - OF YOUR ACTIONS?
Always talking shit - BEHIND MY BACK!
What was the point?

Now condemned by us, is more than enough
To end all your funny stuff
When you were trying to - TAKE - US - OUT!

TAKE US OUT!
Take US OUT!
