You make me see the light  
Fulfill my needs, showing me my dirty deeds  
The clouds are gone, giving me a reason to carry on  
Now it all makes sense

In my mind, in my blood, I know your name  
Giving me a chance  
To get back in the game  
To get back in the game

When you're not around  
My life has no meaning, like I'm on deadly ground  
You leave me empty inside, makes me wanna hide

Seeking you night and day, please won't you stay

In my mind, in my blood, I know your name  
Giving me a chance  
To get back in the game  
To get back in the game

I need your salvation  
Like I'm on vacation  
Once again set me free  
From all that's reality
