I've seen a lot of shit in my life, everyday is a reminder
That life is a Fucking struggle, working hard, just to
survive
Pay my bills and still no pleasure
Feel like a broken old man
Surrounded by negative energy and no more to give

Live Hard!
Stay True To Yourself!
Don't Forget Where You Come From!
Built To Survive

No more to give, the bitterness is taking over
My inner struggle is turning to pure fucking hate
Yes i am BUILT TO SURVIVE
Survive everyday madness that surrounds me
My heart bleeds but afraid to show feelings

There is no, cure for this!

Live Hard!
Stay True To Yourself!
Don't Forget Where You Come From!
Built To Survive

Seen alot of shit in my life - The road is hard
It's been a long way to get here where i am
Blood and tears on my way
all my life I'm fighting to find out where I belong
So where do I belong, tell me where do i belong!

Stay True To Yourself!
Don't Forget Where You Come From!
Built To Survive
