I'd like to say hello and welcome you  
Good day that is my name  
Come here and sit down  
I'm so glad you even really truly came

We can even go and take a walk or something like that  
or something like that  
But first I need to introduce my what and introduce my  
when

Let us sing

It's name I like to call  
It likes to say it's nothing  
It's nothing  
It lives and breathes and it consists that it insists that it  
is something  
(It's something)  
It never liked to sleep or run or walk or sleep or eat  
It even thought that everybody tried to thought to take  
it's seat

Oh god

Looking through glass eyes  
Give it a few tries  
Nothing goes right in it's time  
Kill all its bad dreams  
Wonder bout no things  
Circles and spirals in mind

But we know that this song is not about a no or yes or  
why  
What really truly what I say is that about a little sigh  
So come along I think I'm done I think we're done yes  
this is done  
What truly that I think about it and it thinks a ton

Let us sing

Looking through glass eyes

Give it a few tries  
Nothing goes right in it's time  
Kill all its bad dreams  
Wonder bout no things  
Circles and spirals in mind

I thought you know  
I knew but  
why and by and why and by and by

I thought wanted you to know I thought you knew but  
why and by and why

Let us sing, let us sing  
Let us sing, let us sing  
Let us sing, let us sing  
Let us sing, let us sing

Birds and bees and television (let us sing, let us sing)  
Cardboard houes, x-ray vision (let us sing, let us sing)  
Many little silly rhymes (let us sing, let us sing)  
Things forgotten lost in time (let us sing, let us sing)  
Telephones and silly games (let us sing, let us sing)  
Periods and lots of question marks (let us sing)
