"Two Wuv"

Visit "[Two Wuv](#)" on MotoLyrics.com

I have this little thing
It's probably just a fling
There's two girls I like a lot
I think they're really hot

But I'm not sure if they know
How my love began to grow
It took a lot of time
But right now it's solely mine

Today
I drew a mural of
The things I'd like to love
And where my heart subsides
Is with two girls with great eyes

If they just gave me a chance
I'd show them what they want
And teach them what they got
I'd tickle each and every one of their fancies
Then I'd take the key to my heart and open it
And let the love shine through

Mary Kate and Ashley
I hope you understand
That I love you a lot
And I wanna be your man
And I think
That it'd be totally cool
If I hung around your apartments
And enrolled in your school

Mary Kate
I saw you on TV
You dressed up like a bee
You remind me of the time
How it's gone
And it's gone
And it's gone

And it's sadness every day that passes with out you

And I really want
I really want
I really want
to hold you both tight
And tell you you're mine
But instead I sing

Mary Kate and Ashley
I hope you understand
That I love you alot
And I wanna be your man
And I think
That it'd be totally cool
If I hung around your apartments
And enrolled in your school

Yeah
I can play them a song
But there's probably hundreds of songs out there
Maybe I can play them two songs
Yeah
Cause there's two of them
Yeah

Mary Kate and Ashley
I hope you understand
That I love you alot
And I wanna be your man
And I think
That it'd be totally cool
If I hung around your apartments
And enrolled in your school

I know that
Life without
You and you would be
Sad
And I know it'd be bad

Mary Kate and Ashley
I hope you understand
That your loveliness blossomed
And I wanna hold your hand
And I think
That it'd be totally cool
If I hung around your apartments
And enrolled in your school

Mary Kate and Ashley
I hope you understand
That I love you alot

And I wanna be your man
And I think
That it'd be totally cool
If I hung around your apartments
And enrolled in your school

Once you learn to love me
Life will be alright
Once you learn to love me
Life will be alright
Once you learn to love me
Life will be alright
