It takes a leap of faith outside of consciousness. There is a universal truth, a plan for us. Shift our thinking. Lose our fear and doubt. Tune into the new sound, into the new flow.

Get off, off the grid evolve.
Stargate in your mind, taking you beyond physics of the head.

Deprogram, deprogram, deprogram.....

It's not about material possessions. It's not about race, creed or color. It's about the universal brotherhood, taking it to the next level together. Let's take it to the next level together.

Get off, off the grid evolve.
Stargate in your mind, taking you beyond physics of the head.

Deprogram, deprogram, deprogram.....

Not by technology.

True evolution is in the sixth sense, not by technology, not by intellect but by your unconscious self. Wake up from mind control, from a false sense of security, from what you're told is important because it's not.

Get off, off the grid evolve.
Stargate in your mind, taking you beyond physics of the head.

Deprogram, deprogram, deprogram.....

Let's take it to the next level together.
