Government's lie, hiding in the vapor.  
They're poisoning our sky.  
Look up.  
See that stream that smears for hours.  
How does the truth feel now?

I want to dream through a chemtrail free sky and I want  
to see clear blue not a toxic hue.

First they wanna make you sick, so they break you  
down.

Numbing higher consciousness, so they take control.

Reducing population, 4 billion left to go.

It's a new world but you're the last to know.

I want to dream through a chemtrail free sky and I want  
to see clear blue not a toxic hue.

Step 1 make you sick  
Step 2 numb your consciousness  
Step 3 take control  
Step 4 implement the drones

Now here's what you can do.  
Resist feelings of apathy.

Be aware of what's happening to you.

Tap into your higher consciousness.
