Hello I'm Ms. noncommittal, you won't see at first, it
takes a second or.....

Men yeah they're nice sometimes they buy me fine
wine and pine

Then comes the ring oh no I thought I wanted you

And I'm glad I waited for you
Even though it was temporary
In time you will understand
It was perfect for us right then

Hello I'm Ms. broken hearted
Love at first sight
It takes a drink or...
Soon you'll be asking me if we are meant to be
Then comes philosophy
Oh no what did I do

And I'm glad I waited for you
Even though it was temporary

In time you will understand
It was perfect for us right then

Hello I'm Ms. over you
You turn me off
It took a look or...
Soon you'll be calling me, possibly stalking me
Then comes the ugly part
Why don't they go away?

I think he's my type
This one's the one
What's your name?
Yeah let's get together
Seriously, I think this one's the one
Yeah give me your number
He has everything I want
If I could draw a list, this guy would be it
He's Mr. right now
