Peel slowly and see
maby it will set you on fire, maeby it will set you free
what is it that frightens you so?
come closer now and join our show

Do this dance like on a mission
it's wild I tell you, it's my transition
why don't you just go with the flow
don't you wanna be a sparkling discho?

I just wanna disco
make the whole audience start to twisto
spin around synchronized
it's all making us hypnotized

Let the music take your mind body soul
start to look around, find yourself a pole
your moves are like shiny confetti
do it good we're gonna be so damn swetty

I just wanna disco
make the whole audience start to twisto
spin around synchronized
it's all making us hypnotized

We just wanna disco
make the whole audience start to twisto
spin around synchronized
