Slow down, please slow down
I need to find peace, anywhere in me
I feel like im under water struggling to get air
I feel like im lost in this body, trying to get inside my
head

I wanna know, what im thinking what Im feeling
What I want my life to be
I wanna know how I like plan to make things easier
For everyone but me

Tell me, please tell me
What to do, now that I know myself
Do you really think I could rely on this new person I
have become
Do you really think I give a damn now that I can do
whatever I want

Now I know, what im thinking what Im feeling
What I want my life to be
Now I know how I like to make things easier
For everyone including me

Now I know, what im thinking what Im feeling
What I want my life to be
Now I know how I like to make things easier
For everyone including me

Now I know, what im thinking what Im feeling
What I want my life to be
Now I know how I like to make things easier
For everyone including me

Now I know, what im thinking what Im feeling
What I want my life to be
Now I know how I like to make things easier
For everyone including me
