Hello big family, who's gonna cook the noodles today?
I found a pair of broken glasses and finally I can see
clearly. From Falsterbo to Kiruna, from Gäddede to
Djursholm and even one lost guy from arizona.

Home sweet home, i've been away for too long
Home sweet home, this is where i belong

Going to bed wondering if winter come early this year
Waking up on the line of equator bathing in my own
sweat
Jumping out of someones tent and I don't recognize a
face
Still I know them all well so see you later

Home sweet home, i've been away for too long
Home sweet home, this is where i belong

Let's get nice and friendly, join us for a surfride in the
mud.
We're all for beerhunt, look out for our razzia, hands
up, hit and run
Playing football with a can, Mr J lost his shoe
Suck my menthol feeling fresh all night long

Home sweet home, i've been away for too long
Home sweet home, this is where i belong

Home sweet home, i've been away for too long
Home sweet home, this is where i belong

Home sweet home, i've been away for too long
Home sweet home, this is where i belong
