I've been walking to the place you stay  
while you 're playing music  
And talking to the trees you cut,  
I don't wanna be with you  
But, with a pounding heart, I slowly tried to get there

You've been poking too much time for me  
While I'm making songs  
And baking two pancakes I eat,  
You don't wanna be with me  
Everything you want I will give to you all  
Everything you want I will give to you all

Aiming no fist

Hurting no breath  
Watching no lights in the dark sky  
Counting my age  
Loading your bags  
Knowing why you 're crying

I want you to stay  
I want you to stay  
Because you should get my soul back  
I want you to pay  
I want you to pay  
Because you should leave right now

Can you get married with God you've believed?
