When I saw your smiling face
I fell in love with you and your smile
never thought I lose you some day

When I lost your smiling face
I got in touch with mad and bad style
Never live any more

When I saw your painful face
I tried to keep you safe with everything
never thought I lose you some day

When I saw your happy face
I tried to be with you all time long
Never leave you alone

I wanna stay here every night
To get freedom and peace
Where the morning comes alive
I don't wanna cry on your shoulder tonight
Please don't tell me the lie
You're in tears and rain, I know

To say I don't know why
Come to me
You are the only one
You know what I mean

To say I don't know why
Come to me
You are the only girl I loved

When I saw your smiling face
I fell in love with you and your smile
never thought I lose you some day

When I lost your smiling face
I got in touch with mad and bad style
Never live any more

I wanna stay here every night
To get freedom and peace

Where the morning comes alive
I don't wanna cry on your shoulder tonight
Please don't tell me the lie
You're in tears and rain, I know

To say I don't know why
Come to me
You are the only one
You know what I mean

To say I don't know why
Come to me
You are the only girl I loved

Every winter is cold and we wait for the spring
And every summer i blue and we wait for the fall
So on you're my ocean and dreaming of life
Please don't say me good bye

You know
To say I don't know why
Come to me
You are the only one
You know what I mean

To say I don't know why
Come to me
You are the only girl I loved
