I go big or go home
And aim high til I touch the sky
It's all that I know I won't stop
Cause this life is all I got

All you get is one shot, better live it up
Puff a little more bud, fill another cup
Yeah I can party cause I grind every damn day
Can't even call it work though
It's how a man play, pause
Ain't a game bitch I get it in
Everything a song need
Call em medicine
Praying mom sees hope in her son's eyes
Going at it all night til the sunrise

I go big or go home
And aim high til I touch the sky
It's all that I know I won't stop
Cause this life is all I got
This life is all I got (x4)

Party over here, nah that was Side One
And this is Side Two but you know how I do
Still makin hits, still a take ya bitch
And what you eat now still don't make me shit
I remember when nobody listened
We was slaving in that basement like it was a kitchen
All we had was weed, liquor and a dream
Dropped a hot tape and started pickin up some steam
And now it's Track Eater fans everywhere we go
So when we come to ya city have a dutchie rolled
Of that high grade, never failed a test
And I prefer the kush cause it smell the best

Let the roof back, my whip topless hoe
And Imma live it up til it's my time to go
You gotta live every days like its ya last
And bury me face down so the haters kiss my ass, ya dig?

I go big or go home

And aim high til I touch the sky
It's all that I know I won't stop
Cause this life is all I got
This life is all I got (x4)

One time if ya livin' it up
And two times for that liq in ya cup
And if ya go hard, then let me hear ya say it
I go hard (I go hard)
One time if ya livin' it up
And two times for that liq in ya cup
And if ya go hard, then let me hear ya say it
I go hard (I go hard)
Yeah bottles on ice, what it look like?
A little dime on mine, body so tight
Another happy ending to a crazy night
So let the kush sink in as I sing it like

I go big or go home
And aim high til I touch the sky
It's all that I know I won't stop
Cause this life is all I got
This life is all I got (x4)

I go big or go home
And aim high til I touch the sky
It's all that I know I won't stop
Cause this life is all I got
This life is all I got (x4)
