"Over You"

Take your hearts let them bleed
Collecting everyone you see
Take your hearts let them bleed
You've taken everything from me

I'll be the first to guarantee
I'm not the same as I believe
Be the first to guarantee
I've taken everything from me

Chorus
Now it's time to let this feeling die
Nothing you ever do will bring me to you
Now it's time to let this feeling die

Cause after everything you put me through
I'm Over You

Let you write a symphony
No longer will I be your key
Let you write a symphony
You'll be wishing you had me

Chorus

There's nothing you can do (x7)
At All

Chorus
