I'm breakin' every rule  
Callin' you up so soon  
The clock on the wall says not tonight  
But my heart can't tell time

I'm breakin' every rule  
Thinkin' I might love you  
Cuz' others have come and they have gone  
And I guess I could be wrong

If you wanna fast track what I'm feelin'  
Throw inhibition out the window  
And see if it fits  
I can be across town in no time  
Blow through every stop light  
Between your house and mine

Head full of silly games  
Combining your first and my last name  
In my ear it sounds so complete  
Tell me it's just not me

If you wanna fast track what I'm feelin'  
Throw inhibition out the window  
And see if it fits  
I can be across town in no time  
Blow through every stop light  
Between your house and mine

Instrumental...

If you wanna fast track what I'm feelin'  
Throw inhibition out the window  
And see if it fits  
I can be across town in no time  
Blow through every stop light  
Between your house and mine

I'm breakin' every rule  
Mmmmmmmmmmm.....
