Wind in our hair and city at our back
It's quiet on the interstate at hours like this
And you're taking advantage of that
You've got the dream I'm just along for the ride
It must be easy for you nothing left to lose
But me I've got demons to fight

Slow down baby your losing me
Goodbye is harder than you think
I know you're tired of waiting
But take time for the heart that's breaking
Slow down check the rear view and you'll see
Some things are worth remembering
I'm not asking you to turn around
Just Slow Down

Rain comes in top goes up
I say I'll drive for a while 'cause we've been going for miles
I guess you haven't had enough
The radio's on but the silence is loud
Afraid to force a conversation cause you might find out
I'm just holding you down Baby

Slow down baby your losing me
Goodbye is harder than you think
I know you're tired of waiting
But take time for the heart that's breaking
Slow down check the rear view and you'll see
Some things are worth remembering
I'm not asking you to turn around
Just Slow Down

We're at this roadside dive under the disguise of something to eat
You say you'll be right back just order you a coffee
And I watch you walk to the car and drive away

Slow down baby your losing me
Goodbye is harder than you think
I know you're tired of waiting
So take time for the heart that's breaking

Slow down check the rear view and you'll see
Some things are worth remembering
I'm not asking you to turn around
Just Slow Down
