So this is the moment I've been waiting for
I've dreamed it but I've never touched it before
I play to win and baby you're the jackpot
You shot to thrill my heart right in the sweet spot

So this is how it feels to hit the big time big time
Blowing up my heart like a land mine land mine
I'm gonna drink it up
No I can't get enough

I don't need the money I don't need the fame
Girl you're the reason I celebrate
No other girl could ever hold a candle
I can't believe that you're my little devil

So this is how it feels to hit the big time big time
Blowing up my heart like a land mine land mine
I'm gonna drink it up

So this is how it feels to hit the big time big time
Blowing up my heart like a land mine land mine
I'm gonna to drink you up
I can't get enough
No I can't get enough

I hit the big time, Yeah I hit the big time
