"Still Young"

Visit "[Still Young](#)" on MotoLyrics.com

From the school bus to Wall Street, we're all in such a
hurry
Maybe we should slow it on down
Back to money ain't nothing, good times and running
That's all we couldn't live without
Like seeing the sunrise for the first time
Getting your first kiss, your first fast ride
Taking the long way home just cause you can
Baby let's do it all over again
We're gonna fall just to feel like we're flying every
night and day
We're gonna fight just to get what we got just to give it
away
Oh we're still young (Hey Kids)
We're young (Hey Kids)
We're still young
Yeah we're still young (Hey Kids)
We're young, we're still young
Don't you wanna feel that light on your skin
Don't you wanna live just a little bit
Don't cha, yeah don't cha, wanna do it all over again
We're gonna fall just to feel like we're flying every
night and day
We're gonna fight just to get what we got just to give it
away
Oh we're still young (Hey Kids)
We're young (Hey Kids)
We're still young
Yeah we're still young (Hey Kids)
We're young, we're still young
