Blue eyes and great thighs.  
I wish i hadn't seen her.  
I'm not too fucking bright, but i gotta bright idea.  
She didn't say she likes me, but she ain't saying no.  
I'll be chasing my dick all night long "here we go."

I'm talking a whole lot, only thinking a little bit.  
I tell her that her car is nice when it's a piece of shit.  
I don't remember much of the two hours that have  
passed.  
Except i talked a lot of bullshit and ain't gettin' any ass  
man.

Might as well forget it.  
Might as well forget it.  
Might as well forget it.  
Ain't no one getting laid.
