[Kool G Rap]

Deadly rhymes the pages of rage strikes again  
Killing men women and children  
til defeat, types of shelter to helter skelter  
Nobody's around here to help ya

[Shante]

Up in flames the brainstorm rain drains your veins  
The only remains is rains of brains  
Fixed to mix, Shante's lyrics cause conflicts  
I'm quick in my rhymes like convicts

[Kool G Rap]

Got a plan for a deathwish? Come on, step up  
Some tried to keep up, but never kept up  
When I roll nobody can't hold me  
So they all told me to make em die slowly

[Shante]

The warning signs of danger read please take  
precautions  
I'm giving your baby rhymes abortions  
Hit the deck when I wreck one got shot in the neck  
Poison escaped through the tape decks  
Confusion, havin a need for a blood transfusion  
She couldn't stop my intrusion

[Kool G Rap]

Your inner path will belong to a tidal wave  
Sound waves'll take you straight to your graves  
Pain remains in your head suffocation  
Strangulation, raped by the whole nation

[Shante]

On stage tryin to recite like me  
But what I really see is Creep Show 3  
I size em up to die and pulverize em  
So bad her own mother won't recognize em

[Kool G Rap]

This goes for those, that oppose like foes

But I don't diss (I dispose)  
Somewhere right near nightmare right where your  
mind hear  
Songs are long like light years

[Shante]  
So here's a taste of the lyrical greats of all time  
WHAT? Deadly rhymes

\*Chorus\*

[Shante]  
Attack, ready to track the wack rappers who slack  
I attract, cause you lack, you sad sack  
The microphone fanatic, comin in with the impact  
In fact, this track, to subtract, I pack  
a pile of stacks back in the sack for snacks  
but I react, right and exact, cause I'm black  
Got a taste, and treble and bass you can't chase  
In case you wanna race the pace I got haste  
to ace to your case in your face just like mace  
I replace, wreck the place and then erase show

[Kool G Rap]  
I captivated, those that violated  
Alienated, styles annihilated  
Rappers, evacuated, faded, vacated  
Waited, for my spot to be isolated  
Crash and smash and bash you in the trash  
in a flash I whiplash you burned to an ash  
A mass defeat, delete, rhymes are like concrete  
Rappers and police all retreat to my beat  
except they don't step but yep they gettin carried in a  
stretcher  
Done by the treacherous rap wrecker

[Shante]  
Start tearin and scarin, don't you hear in  
We'll put fear in, song comparin  
You get tossed across like Kris Kross  
To force you fell course boss (and now you're lost)  
All rhymes are organized like crime  
That's why the title of this here design is -- DEADLY  
RHYMES
