I'm waiting for the perfect time when I
Can sneak out of my window and baby I am
Counting every second boy until I'm next to you
They just don't understand the things you do to me
They'll never realize how you set my spirits free
It's like trying to keep the rain from falling
I can't keep my heart from calling
There's nothing in this world that they can do
To keep me away from you
And even if it takes forever
I know we will be together
There's nothing in this world that they can do
To keep my away from you
When we're doing it together, our eyes wide open
Just the beating of our hearts, no words are spoken
No one in the world can thrill me like you do
You touch a place inside me that no one else can see
They just don't realize how you set my spirit free
Hold me in you arms
And my troubles melt away
I want to be with you
Every hour of every day
No, they could never know
The love you bring my life
Take me away from here
And baby we can fly
I'm waiting for the perfect time when I
Can sneak out of my window and baby I am
Counting every second boy until I'm next to you
They just don't understand the things you do to me
They'll never realize how you set my spirits free
It's like trying to keep the rain from falling
I can't keep my heart from calling
There's nothing in this world that they can do
To keep me away from you
And even if it takes forever

There's nothing in this world that they can do

When we're doing it together, our eyes wide open

No, they can't keep me away from you 6x there's nothin
in the world they can do. no, they can't keep me away
from you 6x there's nothin in the world they can do
