

Nobody's Angel "Next stop Heaven"

Visit "[Next stop Heaven](#)" on MotoLyrics.com

I'm wide awake but you've got me dreaming
Make no mistake, I love how I'm feeling
I can't believe the spell that I'm under
You get to me and boy it's no wonder

With your heart beating next to mine
In perfect time, boy, you send me

First you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heaven

You know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heaven

You've captured me without even trying
But I'm so free, it feels like I'm flying
I can't explain just how you do it
If loves a game I don't wanna lose it

With your heart beating next to mine
In perfect time, boy, you send me

First you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heaven

You know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heaven

Higher, ooh baby, only you take me
Higher, come on, baby, now only you make me
Higher, ooh baby, only you take me
Higher, let's go

Let's go

With you heart beating next to mine
In perfect time, boy, you send me

First you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heaven

You know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heaven

Higher, ooh, baby only you take me
Higher, come on, baby, now only you make me
Higher, ooh baby, only you take me
Higher, let's go

First you get a little bit
Then you start kissing so
You know exactly where to begin
Ooh, baby, baby, do that again
Next stop heaven

First you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heaven

You know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heaven

Higher
