Ooo.. Yeah..

I said, I've been missing you lady,

Missing you. Ooo, yeah.

O girl, ey!

Chorus

Girl I really need to tell you this,

Just can't live without your love and tenderness (no way).

Girl I really need to tell you this,

You alone a give me full joy and happiness (o yes).

And I'm missing the way you make me feel nice.

Missing the way I hold you at night.

Missing you crazy when you're not around.

Girl I really need you.

Verse I

We've been together for a long time,

Been through rain and sunshine.

Still we keep tracking on.

A nuff \*(??)\* you know we don't claim,

Get you out the ruff times.

When we're weak, Jah makes us stronger.

And it's hard for a lady when her man is away,

But I'll be returning to you girl one day.

We'll be together, I love you forever.

Yes woman I'm here to stay, ey!

Chorus

Girl I really need to tell you this,

Just can't live without your love and tenderness (no way).

Girl I really need to tell you this,

You alone a give me full joy and happiness (o yes).

And I'm missing the way you make me feel nice.

Missing the way I hold you at night.

Missing you crazy when you're not around.

Girl I really need you.
