Ay, ah  
yeah

He said he like me, boy  
My energy, always got the recipe  
Know how to treat you baby if you hungry  
Just keep driving me crazy with your honey

And my erbs in other words  
Can make you fly, through the night  
Want a star in the sky

Want a star in the sky  
We can turn it up  
We can roll  
We can ride  
Til the fragrance up

Special Erbs  
Spe, special erbs  
Special Erbs  
Spe, special erbs

uhm baby ohh  
baby can you feel it  
good for your body  
baby it's that ill shit

Special Erbs  
Spe, special erbs  
Special Erbs  
Spe, special erbs

(Barum)

Make it right, make it right, make it right  
Make it right, make it right, make it right

(Barum)

Make it right, make it right, make it right  
Make it right, make it right, make it right

For a cosmic ride  
Guarantee  
make you feel alright

All the stress is so your day  
Feel like you floating away  
Feel the light of the twilight in your eyes  
Special Erbs open my eyes

Want a star in the sky  
We can turn it up  
We can roll  
We can ride  
Til the fragrance up

Special Erbs  
Spe, special erbs  
Special Erbs  
Spe, special erbs

uhm baby ohh  
baby can you feel it  
good for your body  
baby it's that ill shit

Special Erbs  
Spe, special erbs  
Special Erbs  
Spe, special erbs

(Barum)

Make it right, make it right, make it right  
Make it right, make it right, make it right

(Barum)

Make it right, make it right, make it right  
Make it right, make it right, make it right

ohhhoooh yeah!
