Is there something there?
Feels like a question that's been asked when the
tracks are wrong.
Now fair is fair,
I'm only looking at the time when I'm half-way
gone
And you're not there.

Who isn't feeling this one?
Lately I'm on the otherside.
You know I got a bad bad feeling within myself
That says that all the other stuff I can live without.
So let's go!

I'm making decisions to make or break this
situation,
Feeling wrong for so long that there's no more hint
of hesitation
I've got my mind made up there's nothing
more that you can say
So just let me hang up this phone and get back to write
alone

Who isn't feeling this one?
Lately I'm on the otherside.
You know I got a bad bad feeling within myself
That says that all the other stuff I can live without.
And you know who isn't feeling this one lately.
I'm on the otherside.
You know I got a bad bad feeling within myself
That says that all the other stuff I can live without.

I told myself that I would never let this get the best of
me.
I told myself that I would never let this get the best of
me.
I told myself that I would never be doing the things that
I've been doing.
I told myself that I would never let this get the best of
me.
I told myself that I would never do the things that
I've been doing.

The things I've been doing on the other side!

They're on another side.

Who isn't feeling this one lately?

They're on the other side.

Who isn't feeling this one lately?

They're on the other side when it's late at night

Wasting life, chasing sustenance to feel alive.
