So we've got a problem  
Ya we've got something that's in the way  
Making it easy  
To never look further than today  
Weighing the options but making no play  
Hope for the best and put the scale away  
So many reasons

Tell me when you wanna fall apart  
It's gonna fall apart  
Can't wait to fall apart  
It's gonna fall apart

We've gotta question  
Why not just make a move today  
Awaiting an answer

Tell me when you wanna fall apart  
It's gonna fall apart  
Can't wait to fall apart  
It's gonna fall apart

And one moment is all we need  
The impetus to finally breath  
So when it comes we need to know  
And be prepared to follow

So look at the problem  
And wonder why you want to be this way  
You got to feel comfort  
By turning everything you love away  
Go live in the moment  
Make a new start  
Wipe out the day  
When you lost that spark  
Recover your reason

Tell me when you wanna fall apart  
It's gonna fall apart  
Can't wait to fall apart  
It's gonna fall apart

And one moment is all we need  
The impetus to finally breath  
So when it comes we need to know  
And be prepared to follow

You're on the path again just look in front of you  
You'll need to learn again that walking's what you do  
And as it winds it's way ahead you'll finally see  
It leads to everything you said you'd need

Hard pills to swallow  
With rules this narrow  
Starting tomorrow  
You'll never be this hollow

So look at the problem  
And wonder why you want to be this way  
You got to feel comfort  
By turning everything you love away  
Go live in the moment  
Make a new start  
Wipe out the day  
When you lost that spark  
Recover your reason

And tell me when you wanna fall  
Tell me when you're gonna fall apart
