We didn't go together  
you were going right  
I was growing wrong yeah  
tried to find..  
is impossible so I let it right out  
but it doesn't matter anyway  
I'm hearing everybody say  
that you're happy now  
(so glad honest I'm..)  
but it doesn't take the pain away  
I'm tryin to love myself again  
'cause it's over now

Chorus:

let the fire burn me down ashes blow away  
the seasons come and go  
and I will do again if we get another chance  
this time I will blue  
together together together with you

I thought I'll be forever I don't blame you  
it was all in my head  
baby nothing back can turn back time  
I made my bed and now I got a lie  
that it doesn't anyway  
when I'm hearing everybody say  
that you're happy now  
that's all that matters

Chorus:

let the fire burn me down ashes blow away  
the seasons come and go  
and I will do again if we get another chance  
this time I will blue  
together together together with you

you, you, you, you

[2 x Chorus:]
