(Ft G FRSH)

Riding in the town, like we're in the jungle
Pretty little thing, she ain't nothing but troublesome
We gonna get it in, we gonna start a riot
Tonight we gonna play with fire!
Body so hot, got me hunger like a monster
Ten out of ten, girl, I just gotta talk to you
I play my melodies, you dance like a cobra, all night!

Pre-Chorus:

I'm like, damn, she's so pretty!
So witty, what to do with it
We're young and living,
Pushing life off to the limits!

Chorus:

I can't get these troublesome girls off me, yeah
I can't stop, I'm going on...
I try slow it down
But it's kinda hard when you hear me say:
It's gonna be everything you want, baby
Everything you want!
Everything you want, baby
Everything you want!

Party full of steam like a roller coaster
Knocking 'em shots back, she is a soldier
Let me hold you close like I am supposed to
All night long!
Arguing when we fight like we're bitter
Make up sex is killer
Working it out, and we do it all over all night long!

Pre-Chorus:

I'm like, damn, she's so pretty!
So witty, what to do with it
We're young and living,
Pushing life off to the limits!

Chorus:

I can't get these troublesome girls off me, yeah

I can't stop, I'm going on...
I try slow it down
But it's kinda hard when you hear me say:
It's gonna be everything you want, baby
Everything you want!
Everything you want, baby
Everything you want!

They go so OTT, but they know that I go P
When I join them in that range
Pull it out my...
...just try to get peace
So I'm always found in trouble
Especially when you're single and these women...
It's getting kind of late
I think I might...
Bad boy ..troublesome!
Mom says ...
I'm too in love...
Uh, It's the spot... if the girls stay insane, uh
So I'mma put it down to my name
I tell mother fuckers stop hating!

Chorus:
I can't get these troublesome girls off me, yeah
I can't stop, I'm going on...
I try slow it down
But it's kinda hard when you hear me say:
It's gonna be everything you want, baby
Everything you want!
Everything you want, baby
Everything you want!
