[Intro:]

One time for the women  
Hit ya two times for the ladies  
Three times for the bitches  
That's right

[Verse 1:]

Motherfuck the government, motherfuck the system  
Motherfuck you I'm just living how I'm living  
Patron with a lemon, Pinneapple in the Ciroc  
Vanity, more homes than the Sherlock family to roll  
through  
Smoke up, fuck with a broad or two  
I'm broader than you, (Murda!) I'm slaughtering you  
She ain't gotta be a genius to see it  
I just hope the brain make me say Jesus Christ  
No religion, I'm just so explicit  
I coexist in places you would never know existed  
(What, what) Soulo here  
Take a photo like a 4-seater  
Top notch to my fucking socks  
Say I'm not, you smokin' rocks  
She on my jock, that's reasonable  
If she pop a Xanny and give me the panties

[Hook:]

She'll never leave me alone  
Shit, I swear I just met shorty like 40 minutes ago, and  
it's a go  
Man I hope she don't think I think she a ho  
Got me harder than sneaking a bitch in Bohemian  
Grove  
One time for the women  
Two times for the ladies  
Three times for the bitches  
The bitches

[Verse 2:]

Motherfuck the government, motherfuck the system  
Motherfuck you I'm just living how I'm living  
Hennessy and Coke, 1800

We mixing dark and light like the 1800s  
And we getting blunted, what it do? Yes, indeed  
Bet I got some weed like Schoolboy Q  
Let the festivities begin, we in here (what),  
we in here (what), we in here  
Where them hoes at? I'm sincere as Nasir  
Belly of the beast, I might feast on my dear  
We night ride like Paul Revere  
Spilling Mai Tais all on her brasiere  
Top notch to my fucking socks  
Say I'm not, you smokin' rocks  
She on my jock, put the key in the door  
If she pop a percocet and give me the sex

[Hook]

Hey baby, I been thinking of you,  
hey baby, I been thinking of you  
Hey baby, I been thinking of you,  
hey baby, I been thinking of you  
Look at my mind, floating away  
I get so illuminati

Motherfuck the government, motherfuck the system  
Motherfuck you I'm just livin how I'm livin

Control [x3]  
Stimulate the hoes  
Control  
Educating my niggas  
Control [x2]
