Back when I first grabbed that pen
I told myself that I was gonna win
And I ain't no win, but it was go in
Dub happening I want in
So you can take your top 5 list
Dead or alive, and put me after m

I'm a fucking genius, gripping my fucking penis
Living this life, you can't tell me nothing
Still I really got no money, fucking right
I'm all about that wealth, about that wealth
This ain't no motion picture
I'll tell you how that feel, how that feel
Even when the odds' against you
They wanna see me wear polo draws, put 2 chains on
And that ain't wrong but that ain't me
I go too damn hard on... and jury
To stand out, black... nigga with his hair wild
Too damn proud, but killing it since...
Oh boy, oh boy, I'm the man now
Ttty... put the money in my hand, they should freak
It's been this quick sand, I won't sink
Put the pistol in my hand and I won't think
Blow, blow, rest in peace, you just made room for the
next to be
I never been afraid to say what I wanna say, when I
wanna say it
Ok, then
Furthermore we do this for y'all
Rap stressing but it pays great
That is until you loose a pill,
On your release date, get...
Stay safe, hold your head, I got 2 15 and a loaf of
bread
Feed the people, food for thought
Cause we are equal, who would've though?

They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
You can have all my shine, I give you the light

You can have all my shine, I give you the light

I used to wanna rap like jay z
Now I feel like I'm run laps around jay z
Now same scene... nasty...
My niggas say my new shit past due
I pay dudes, even got that shit tattooed
High power...
I know you know we need a few... too
The brand new niggas with an attitude
Popping compton or...
I might even sell my shit for 10 bucks too
Too I'll when I chop these words
True I'll when I shot the world
I know life's a bitch, when you know life's a bitch and
that's not your girl
Cold shit, I'm hot though, like colgate...
This is a shifting paradigm, I remember when I couldn't
spare a dime
Now I step in with a pair of dames
All peace, y'all know me, flow like water, admiral...
... forever to breathe
And as we proceed, to follow these dreams, I ain't
loosing no sleep
No, no,... it's no no if it's no dope
So high but I'm so low, 2 cups and I sip slow
Taking my time, we don't just shine, we illuminate the
whole show

They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
You can have all my shine, I give you the light
You can have all my shine, I give you the light

Time in time I drop line for line
But only time will tell, if I ever go...
And cop 39... see the truth is
They wanna know how close me dre and snoop is
... expectations' critics hating shit,
I just put moms on vacation bitch
And you never know my new location, is across nations
... I am ruler, I am highness... I am the shit...
Black on black crime, present the shooter
Racks on racks, I go rap on tracks... so please don't ask
me
About no pressure, bitch with a grip on my finger tip
I can hold this coast together

They wanna share my light, they wanna share my light

They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
They wanna share my light, they wanna share my light
You can have all my shine, I give you the light
You can have all my shine, I give you the light.
