

## AC "All Night Long"

Visit "[All Night Long](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Remember all those starry nights  
I was looking at the sky  
You were looking at my eyes

You were telling me my hair smells wonderful  
that my dress looks so nice on me

Sitting at the sea shore  
I said I saw a shooting star  
You told me "make a wish"  
But hey, my wish was you

Won't you pull me near  
Don't you wanna feel my skin?  
Won't you stay with me  
All night long?

You said it's not meant to be  
You said we'll see next years  
But I know, you know  
I want you all night long

So won't you pull me near  
Don't you wanna taste my lips?  
Won't you stay with me  
All nights long?
