Say it again, say it again (oh)

What's up y'all?

I've been thinking all the day  
of a..place to get home  
but I just can't wait that long oho  
you make it hard for me to work when all I see is your  
face girl  
you get me started girl I'm your body rock it  
I get you thirst to work you out while I'm working  
sending them text it and talking nasty on purpose  
shawty comes out 'cause I'm ready right now  
ain't gonna be no room for talking just come in and get  
walking

Chorus:

And I break room, shawty got you posted on the wall  
and I break room, whisper let me know just what you  
want  
and I break room, break room, break room, break  
room,  
now just get up on the sky girl we only got it now  
And I break room, shawty got you posted on the wall  
and I break room, whisper let me know just what you  
want  
and I break room, break room, break room, break  
room,  
now just get up on the sky girl we only got it now

Got me thinking that you're pulling on my sipper  
let's scrip and scratch on my thought yelling trigger  
got a lie uhh uhh  
give it to your body so good you can't uhh  
I get the worse to work you out while I'm working  
sending them text it and talking nasty on purpose  
shawty comes out 'cause I'm ready right now  
ain't gonna be no room for talking just come in and get  
walking

[Chorus:]

Yeah, We do it like  
yeah, she only lie  
yeah we do it like  
bring the beat back

Rock it by the..shame, we can get it all  
going hard causing a sin, I can..it all  
same time..just believe it's going down  
uh uh

Now girl when I give the hearse to work you out while  
I'm working  
sending them text it and talking nasty on purpose  
shawty comes out 'cause I'm ready right now  
ain't gonna be no room for talking just come in and get  
walking

[Chorus:]
