My God, my God, Heavenly Father!  
I feel forsaken.  
Disgrace and shame consume me.  
Eternal night now reigns.  
Daylight engulfed by shadows,  
I pray to end this agony.

[Chorus:]

Gone, everything I loved, just a memory.  
Stripped of every ounce of self-respect  
fall to my knees.  
Cover me in ash, curse the day that I was born.  
Release me from this living death, welcome oblivion.

My friends they offer only cruel indifference.  
You did this to yourself,  
now you must pay the consequence.  
I can't believe how fast companions turn their back  
Another cruel reminder nothing ever lasts...  
It's gone...

[Chorus]

You give and take away  
Blessed be Your name.  
I cannot comprehend all the workings of Your hand  
But still I will wait, hold fast to endless faith.  
Overwhelmed and torn apart but never abandoned  
When it seems that all is gone.

[Chorus]

Hold fast!! With confidence!!  
Overcome your doubt with endless... faith.  
Conquer. Prevail.
