We were sitting in a t-bird
It has not consented to run since 1970
Brothers bent on the destruction of innocent t-birds
Crowbarred everything but the
Radio, windshield, driver's side mirror
Love is alone with the radio on
And love is a newly blind
Fumbling fumbling
Tell me what to do with all this
Happiness

Lobsters nesting in a dead man
Waiting at the bottom of the lonely ocean
Neighbors swimming in their fishbowls
Television blue glow if you go i won't know anyone
Taking a bath in the deadly sunshine
Time is a car with the radio on and
Time is a broken boat
Ruddering ruddering
Tell me what to do with all this
Happiness

Busted and broken didn't get very far
Busted and broken sittin right where you are
[let it last another summer]
But i'm a feather flying, i'm a leaf on the wind
There's no school like driving with the wind on your skin
[let it last another summer]

Love is a newly blind
Time is a broken boat
Taking a bath in the deadly sunshine
Time is a car with the radio on
And time is a broken boat
Ruddering ruddering
Tell me what to do with all this
Happiness
