"Julia"

Visit "[Julia](#)" on MotoLyrics.com

Tell you who i miss the most
Dressed in see-through like a ghost
Julia julia
She pulled me in and she locked the door
Gave me wine and gave me more
Julia julia

If you need a place to go
You can always crib with
Julia julia
If you're sick she'll cool you down
Til you're only sick for
Julia julia

Julia don't take this wrong
It's not to say that i'm the one
To take more than an hour or a day from

Taken with pills, taken with beer
Many come for love is
Julia julia
What i'd give to taste again
All the dreams i left in
Julia julia

Funny, that last time i left
The wind was howls the sky was cleft
And summer clouds were dumping on the harbor

At times i think of goddesses pissing love on everyone
Goddess piss is sunny and full of tears like julia

Julia don't take this wrong
It's not to say that i'm the one
To take more than an hour or a day from
Cause you deserve a quiet place
That doesn't move or change it's face
And everywhere i ran, i ran away from
