### "Tinkerbell"

Tinkerbell busts her brains  
Bashing into window panes  
But who is gonna need a light  
In the buggy buzzy neon night?

Tinkerbell takes off her rags  
Empties out her saddle bags  
And watching all the cracks in the wall rearrange  
Tinkerbell is open to a change

"probably time i looked into  
Some other things a girl can do  
Could sell my body  
To light up someone's t.v..."

But something comes through at last  
So it doesn't come to that  
Luckily a girl lost her ring in the rain  
So tinkerbell is dangling down a drain

And there in the sewer she  
Sees a thing she's never seen  
A constellation
