I wanna lay with you girl
And feel your body over me
Give me a piece of your time
And I know that I'll convince you to be mine

I'm gonna love ya, love ya so sweet
There is never a time you wont be sexually pleased
Know how to work it
Give what you need
Even though I know you've got insecurities

Girl if I give you good sex tonight
Wont you stay, stay with me another night
And if I give you good sex tonight, can we make
Make good love forever for all time (hook)

So baby lets get it on
Undress that body come close to me
Now baby
See how much and how long, I can groove you darlin
Keep you warm

I see a lonely tear in your eye and
I know you not too sure about spendin the night.
Wont let you leave me I'll make it right
Cause I know just how to do ya and I'll change your
mind

Repeat hook

Tonight your my baby
We're gonna make sweet love on and on
I'll be lovin you crazy
We're gonna sex it up tonight
Share good love so right
And start all over again

Repeat hook 2x
