"Lie To Me"

Give it away what do you want me to say,
Well it's my life and I don't care that everyone figured
out,
Past a shadow of a doubt what they want out of this
existence.
I'd be lying If I said I had me a plan,
Got a voice in my throt so I could sort in my head?
Not a reffers approach?
I'm making a stand, it's my life,
So I don't lie to me (lie to me) lie to me (lie to me) give
me something,
So I don't have to pray.
Go! don't bother asking if not intrested
I'm just tryna make it seem like
I don't care you can be fussin and fighting but
I'm always writing my songs to keep me insane.
I'd be lying if I said I had me a plan,
Got a voice in my throt I could sort in my head?
Not a reffers approach?
I'm making a stand it's my life,
So I don't lie to me (lie to me) lie to me (lie to me) give
me something
So I don't gave to pray.
Lie to me (lie to me) lie to me (lie to me) give me
something
So I don't have to pray.
Lieing in existance, seeing the world [x2]
Lie to me (lie to me) give me something
So I don't have to pray. [x2] Go!
