I been bad, bad as any other but I don't wanna be bad  
no more

And I been guilty, cheatin on my lovers but I don't  
wanna mess around no more

Because I finally found a lady that means everything  
I promise I will never break her heart

This time I 'll be committed and that's what I'll be  
I found my angel I found my star

You know you're truly somethin' special  
And I'll keep you right here  
In my heart baby, and you know I'm sincere  
You know you're truly somethin' special and I'll keep  
you right here  
In my heart baby, and I'll hold you so dear to me (hook)

I can be good  
Good as any other, but I been bad for so long  
I wanna be good. your one and only lover and I want  
you to keep me strong

There are no indecisions I've made up my mind  
Your the only girl for me yeah yeah  
It's time I started listenin to this heart of mine  
I finally found the girl of my dreams

Repeat hook 2x

Oh I wanna know, do you wanna go with me baby  
Come on and marry me baby  
This time I will be true  
Girl always for you

Repeat hook 2x
