[Hook: Mikel]

when we were together you were down for whatever,
we went everyplace you wanted to be hitting up all the
spots but now that time has stopped, but you still need
to kick it with me , I'm doing big things now I got the
game on lock, but I really wanna give you everything I
got , I'm doing big things but I need you more to do
some bigger things ,so tell me what are we waiting for?

[Verse 1: After-Born]

Yo girl you took this love without contradiction, as you
test it and you felt it, your consent to my suggestion is
appreciated, you are my girl, i can feel it, no need to
pretend anymore, it's just amore, your romance is what
i need now, lets call each other our own so that we can
make this tighter, lets get it on and this love will flow
just like water, you gonna feel better, all i wanna do is
to lift you higher, my patient is now getting lower, i
don't care about another girl friend, and i don't cheat
on my lover, so i call you lover, lover , i hope you don't
think of another, the smile on your face is always bring
to me some nice weather, i wanna let you, making love
to you test good more then white sugar, i treasure any
minute i spent together with you my lover.

[Verse 2: After-Born]

Know so, you gonna have protection because my eyes
you gonna use to see, you -n't gonna feel depression
as you move with in this, your beauty is the sexiest in
this vale, i asked the good God to send any blessing
and he sent you, that is something so glorious because
you are so gracious, don't get bad, always ask
question because this is something serious, i believe in

love but i don't know about other men, take it to my
understand, you are the only that can make me stand,
what are you waiting for? i picked you up so that we can
fly, i know that we can touch the sky, you always gonna
feel satisfy, you are the one i am living for, now i don't
know what i am waiting for, stop hitting around the
bush now, lets get it on girl.
