(Intro repeat)

Oh oh

(Verse 1)

In the middle of the night

I hear my phone ring

When I go to say hello

I hear nothing

And I know it's you playing on the phone

Wishing you were here

But your home alone

You got nothing else

Better to do

Tryna play games

But the game's on you

And your head's all up in the clouds

It's time for you to come down

And realize that...

(Bridge 1)

He belongs to me

Your living end what used to be

Stop wasting your time

Let it go

Cause he just don't love you no more

(Chorus repeat)

You can flip

You can trip

You can try

But your wasting your time

Cause the truth steal remains

When you think about it

Girl, he's all mine

(Verse 2)

Now I know you were together for a long time

But the truth remains

He is all mine

You can talk about me

All that you want

What is said is done

Your just not the one
I'm not trying to say
I'm better then you
I can do it to
The pain your going through
But you need to understand
Things have changed
Girl open up your eyes
And realize

(Bridge 1)

(Chorus repeat)

(Bridge 2)
See I don't know why
Why you must try
Can't you see that
That he's all mine
Don't you get it
So get over it
Why can't you see
It's over
No no

(Bridge 1)

(Chorus till fade)
