You're getting on my case this time
You're good at causing hopes to fall
The last time you looked in the mirror
I don't think you liked what you saw
You've got and active imagination
And a lack of communication
You've got and active imagination

Can't get a reply
Won't get it for you
Gonna get a black eye
Gonna give it to you

You've got me bending over backwards
And this really makes me sad
Did you ever get a sneaking suspicion

Then realize you're being had
I don't want you participation
It only leads to agravation
I don't need your participation

Can't get a reply
Won't get it for you
Gonna get a black eye
Gonna give it to you

Can't get a reply
Won't get it from you
Gonna get a black eye
Gonna give it to you
Get it right in the eye
Give it all to you
Gonna get a black eye
It looks good on you
