[Intro]

[Verse 1]

Whoa Whoa Whoa
I'm the only one in the room, and I still can't hear
myself
Think I might need some help, see my mind's gone bad
with greed
Hands out, more money please
How I got this way? I really can't say, but I'm on one
Fuck everybody, how I feel sometimes
No it's not personal, just some words that rhyme
Look, I'm a Gemini...I don't know what that means
Now tell me your sign, wait, it's irrelevant
I'm a nervous wreck, like all the time
If you listen to my lines read between the lines

[Hook]

This song wasn't meant for you
This is something that I like to do
No I don't want you to dance, or show ya ass like you
lowered ya pants
But, you can bring the noise though
Bring the noise though
I said bring the noise though

[Verse 2]

I said bring the noise, like you're arguing
Be as loud as you want it's a party kid
Now me myself I gotta mouth on me with a nasty bite,
it's just the dog in me
I bar hop to kill time, Jack Daniel's, margaritas, I fucking
hate wine
If you feeling this I got love for you
All the haters keep doing what you do
Bring the noise, c'mon I dare ya don't be scared know,
go on and man up
Put some hair on ya chest say something didn't you
hear the hook while your gums was bumping?

[Hook]

This song wasn't meant for you
This is something that I like to do
No I don't want you to dance, or show your ass like you
lowered your pants
But, you can bring the noise though
Bring the noise though
I said bring the noise though

I said bring the noise and fuck everybody
I said I walk around the club, fuck everybody ha
